

"Before we began calling this date rape... we called it exciting."

- Warren Farrell, author of "Myth of Male Power"

Petition against "Men's Issues Awareness at UofT"

To Asim Ashraf, Coordinator, Campus Organizational Services, Office of Student Life

- *Whereas "Men's Issues Awareness at UofT" has invited Warren Farrell onto campus, a well-known misogynist who has dismissed women's oppression and defended rape culture;
- *Whereas "Men's Issues" groups blame women and ignore many issues affecting women and men, like poverty, racism, ableism, homophobia and transphobia;
- *Whereas there are already problems of sexual assault on campus, and the growth of ideas associated with these groups perpetuates an unsafe environment;
- *Whereas free speech doesn't include hate speech;
- *Therefore we the undersigned students, faculty and staff at UofT call on the university to revoke recognition of "Men's Issues Awareness at UofT" and remove all access to university services.
